

October 24th, 2025 On the Hook Fish & Chips

An impromptu meet up for some wild Alaskan cod was great excuse to take advantage of the great fall weather and to catch up with some friends in our brit mobiles.

October 11th, 2025 Golden Spike Run & Picnic

The Golden Spike National Monument Run was the **first time** the BMCU has gone there. The route out to the Monument was smooth and did not require any Interstate travel.

This inaugural event was an **amazing Run**. The weather was **AWE-SOME**, great temps and no storms! Many of the members drove their vehicles **TOP DOWN!!!** Because of the government shutdown, we were basically the **ONLY ones at the Monument!** It was as if Kent had reserved the whole place just for the BMCU. This was cool because we could wander any where we wanted and not have to fight any crowds. The Golden Spike Monument has an area for visitors to sit and enjoy a picnic lunch. It is designed so that if there is inclement weather, one can stay dry and out of any wind or out of a hot sun.

October 4th, 2025 Nebo Loop Color Tour

The roads were wet but they were not slippery and although there was rain, it didn't rain all day. 12 members and 8 vehicles started the drive and 5 vehicles completed the Nebo Loop National Scenic Byway. Of the 8 vehicles, 6 of them were British. Due to the unpredictable weather, we had very nice stop at the Nephi City Park and pavilion for our lunch.

At the higher elevations a wet snow was falling but not sticking to the roads. On the north and south sides of the road, the Angus cattle made several appearances.

Was there any Fall color? Yes! In fact, many areas were accented by the clouds and snow. Once again, the Nebo Loop produced some incredible colors, even with less than perfect weather.

Was the traffic heavy on the Loop? No. There were some vehicles going south to north, but they were few and no problem. Was there a surprise on the Run?

YES!!! Ron Jensen arranged for a personal tour for the BMCU of the old, but refurbished gas station in Goshen. It has been in Steven Staley's family since the early 1900's. It also was the second Ford dealership in Utah! Steven, who is also the Mayor of Goshen and his wife, Jen, were warm and welcoming hosts for our group. The station is beautifully restored with the Staleys planning on more detailing.

Auto Jumble

Hello, I have a parts pile that I would like to get rid of or sell them.

[Listing](#)

Selling my our 2001 XK8. Quite a looker, starts, runs and drives, but need some TLC. Had a check engine light - codes were read, showed lean bank 1 bank 2 code, which google tells me can be "vacuum leaks, dirty or failing mass airflow sensors (MAF), or fuel delivery issues". There was also a minor evap leak code. These were reset and the check engine light had now gone, although there is an intermittent stability control warning message (not check engine light), that resets on re-starting, but often comes back. Could do with upper suspension mounts / new front shocks, also has a minor steering rack leak. New battery fitted a couple of weeks ago. So - anyone looking for a winter project? Could be a great opportunity for a club member to get her running right. If anyone has had a hankering for a big cat and is not afraid of some work, message me. Louise wants her garage spot back before winter! Asking \$3500 Drop me a line at charles.edington@gmail.com or text at 801 556 81217

I am regretfully selling my 1991 Rover Mini. I recently bought a PUP and my wife insists we dont have room for both. This right-hand side driver was imported from England. 4 speed manual transmission. This mini was taken new by the original owners to John Cooper Garages in Ferring England and fitted with a Rover approved high-performance upgrade package, making it very rare and collectible. This conversion includes the S conversion bringing the power up to 90 BHP plus the handling pack and is individually numbered. This is the last year for the dual carburetors. They were tuned and polished properly prior to leaving the UK. It also has a very rare twin petrol tank conversion, making it ideal for longer trips. This mini has been authenticated by John Cooper Garages chief mechanic who has known the car from new. I have the conversion certificate signed by John Cooper. The history file is remarkable with bills and past MOT It has covered just 63000 miles in the last 31 years. An investors dream and very rarely found in this condition, especially in the US. She turns a lot of heads and is a multiple award winning car at both US and UK car shows in its current condition. For more photos or details or to schedule a viewing, please contact Luke.

Hello BMCU members.

The Club now has a local source for our Name Badges. You can view the design on the BMCU website under the merchandise tab. The badges are \$20 and will be ordered on a pre-pay basis. In order to keep the price at \$20, we need a minimum order of 15 badges. The order will be placed once we reach that number. If you are interested in ordering a name badge, please let me know via email. I'll need to know the following information:

- Name as you want it to appear on the badge
- Vehicle Year
- Make
- Model
- Contact email or phone number

Payment can be made via cash, check, or credit card (via the Square app - you can call & give me info over the phone or see me at an event). I live in the Millcreek area in Salt Lake City and am open to receiving payment at my home. If you have any questions, please let me know.

Thanks,
Denny Blackett
BMCU Quartermistress

September Events!

October 28: Bison Run

November 8: Season End Dinner @ Leftfork Grill
